- 4.) Kevin Presing: presik

### Data Sets:

- 1.) New York Stock Exchange Securities from 2010 - 2016
  - a.) <https://www.kaggle.com/dgawlik/nyse#securities.csv>
- 2.) New York Stock Exchange Prices from 2010 - 2016
  - a.) <https://www.kaggle.com/dgawlik/nyse#prices.csv>

**The location of the data:** Kaggle

Any relevant license information: N/A (open source under Creative Commons)

**How you plan to join the two datasets:** We plan on bringing the two data sets together utilizing the ticker symbols provided in both data sets. This in turn would hopefully allow us to see the prices every day of selected securities and more information about them from 2010 to 2016.
